How to get your Report Card URL

Joel Taylor edited this page 9 days ago · 3 revisions

How to find your Report Card URL on CodeSchool.com

Open your browser and navigate to www.CodeSchool.com and make sure you are logged in. Once you've logged in, click on your avatar image and a dropdown menu will appear. Once the dropdown menu appears, click on the "My Report Card" button.

Here's a preview of what that menu should look like:

Once you've opened your Report Card, do the following:

- Make sure your Report Card set to "Public" by clicking the "Make Public" button
- Copy the URL of your report card, and add `.json` to the end of the URL string

Your URL should look similar to the following: `https://www.codeschool.com/users/sergiocruz.json`
