(https://egghead.io/technologies/node)

Build microservices in Node.js with micro (https://egghead.io/lessons/node-js-build-microservices-in-node-js-with-micro)

(https://egghead.io/technologies/typescript)

Install TypeScript declarations from npm (https://egghead.io/lessons/typescript-install-typescript-declarations-from-npm)

(https://egghead.io/technologies/typescript)

Make usages of "this" safe in class methods (https://egghead.io/lessons/typescript-make-usages-of-this-safe-in-class-methods)

(https://egghead.io/technologies/react)

Add Redux State Management to a React on Rails Project (https://egghead.io/lessons/react-add-redux-state-management-to-a-react-on-rails-project)

(https://egghead.io/courses/use-grep-for-fast-search-from-the-command-line)

[Course] Use Grep for Fast Search from the Command Line (https://egghead.io/courses/use-grep-for-fast-search-from-the-command-line)

TS (https://egghead.io/technologies/typescript)	Catch unsafe use of "this" in TypeScript functions (https://egghead.io/lessons/typescript-catch-unsafe-use-of-this-in-typescript-functions)
JS (https://egghead.io/technologies/js)	Convert a QueryString to an Object using Function Composition in Ramda (https://egghead.io/lessons/javascript-convert-a-querystring-to-an-object-using-function-composition-in-ramda)
TS (https://egghead.io/technologies/typescript)	Simplify asynchronous callback functions using async/await (https://egghead.io/lessons/typescript-simplify-asynchronous-callback-functions-using-async-await)
(https://egghead.io/technologies/react)	Render Basic SVG Components in React (https://egghead.io/lessons/react-render-basic-svg-components-in-react)
(https://egghead.io/courses/build-a-react-native-todo-application)	[Course] Build a React Native Todo Application (https://egghead.io/courses/build-a-react-native-todo-application)
JS (https://egghead.io/technologies/js)	Use Scoped CSS in Vue (https://egghead.io/lessons/javascript-use-scoped-css-in-vue)
JS (https://egghead.io/technologies/js)	Get Started with Vue Components (https://egghead.io/lessons/javascript-get-started-with-vue-components)
JS (https://egghead.io/technologies/js)	Get up and running with vue-router (https://egghead.io/lessons/javascript-get-up-and-running-with-vue-router)
JS (https://egghead.io/technologies/js)	Use basic event handling in Vue (https://egghead.io/lessons/javascript-use-basic-event-handling-in-vue)
(https://egghead.io/technologies/otherjs)	Use git add --patch for better commit history and mitigating bugs (https://egghead.io/lessons/tools-use-git-add-patch-for-better-commit-history-and-mitigating-bugs)
JS (https://egghead.io/technologies/js)	Create Streams From Iterables With Most.js (https://egghead.io/lessons/javascript-create-streams-from-iterables-with-most-js)
JS (https://egghead.io/technologies/js)	Declaratively Map Data Transformations to Object Properties Using Ramda evolve (https://egghead.io/lessons/javascript-declaratively-map-data-transformations-to-object-properties-using-ramda-evolve)
JS (https://egghead.io/technologies/js)	Public Class Fields with React Components (https://egghead.io/lessons/javascript-public-class-fields-with-react-components)
JS (https://egghead.io/technologies/js)	Select a Subset of Properties from a Collection of Objects in Ramda (https://egghead.io/lessons/javascript-select-a-subset-of-properties-from-a-collection-of-objects-in-ramda)
JS (https://egghead.io/technologies/js)	Use ES6 Proxies (https://egghead.io/lessons/javascript-use-es6-proxies)
JS (https://egghead.io/technologies/js)	Curry and Uncurry Functions with Ramda (https://egghead.io/lessons/javascript-curry-and-uncurry-functions-with-ramda)

(https://egghead.io/technologies/react)	**Break up components into smaller pieces using Functional Components** (https://egghead.io/lessons/react-break-up-components-into-smaller-pieces-using-functional-components)
JS (https://egghead.io/technologies/js)	**Create Streams From Single Values With Most.js** (https://egghead.io/lessons/javascript-create-streams-from-single-values-with-most-js)
(https://egghead.io/technologies/react)	**Create a Button Shake Animation in React Native** (https://egghead.io/lessons/react-create-a-button-shake-animation-in-react-native)
(https://egghead.io/technologies/react)	**Creating a component with React on Rails** (https://egghead.io/lessons/react-creating-a-component-with-react-on-rails)
(https://egghead.io/courses/understand-angular-2-directives-in-depth)	**[Course] Understand Angular 2 Directives in Depth** (https://egghead.io/courses/understand-angular-2-directives-in-depth)
CSS (https://egghead.io/technologies/css)	**Create a tab component using vanilla CSS** (https://egghead.io/lessons/css-create-a-tab-component-using-vanilla-css)
(https://egghead.io/courses/create-native-mobile-apps-with-nativescript-for-angular)	**[Course] Create Native Mobile Apps with NativeScript for Angular** (https://egghead.io/courses/create-native-mobile-apps-with-nativescript-for-angular)
JS (https://egghead.io/technologies/js)	**Combine Objects with Object.assign and Lodash merge** (https://egghead.io/lessons/javascript-combine-objects-with-object-assign-and-lodash-merge)
JS (https://egghead.io/technologies/js)	**Set up a native app project with the NativeScript CLI** (https://egghead.io/lessons/angular-1-x-set-up-a-native-app-project-with-the-nativescript-cli)
(https://egghead.io/technologies/react)	**Create A Login Screen in React Native** (https://egghead.io/lessons/react-create-a-login-screen-in-react-native)
(https://egghead.io/courses/use-higher-order-observables-in-rxjs-effectively)	**[Course] Use Higher Order Observables in RxJS Effectively** (https://egghead.io/courses/use-higher-order-observables-in-rxjs-effectively)
(https://egghead.io/courses/natural-language-processing-in-javascript-with-natural)	**[Course] Natural Language Processing in JavaScript with Natural** (https://egghead.io/courses/natural-language-processing-in-javascript-with-natural)
(https://egghead.io/technologies/react)	**Make a Button in React Native with TouchableHighlight** (https://egghead.io/lessons/react-make-a-button-in-react-native-with-touchablehighlight)
JS (https://egghead.io/technologies/js)	**Create a list with nested reduce functions in ImmutableJS** (https://egghead.io/lessons/javascript-create-a-list-with-nested-reduce-functions-in-immutablejs)

HEY, QUICK QUESTION!

Why are we asking?

(https://egghead.io/courses/build-a-graphql-server)	[Course] Build a GraphQL Server (https://egghead.io/courses/build-a-graphql-server)
